- Database(NOSQL, MYSQL)
- Stripe and Square (Payment Gateway)
- GitHub (Verison Control)
- Node Js, Express (wherever lib need for the project)
- Virtual machines(Compute Engine)
- Ubuntu

PROFILE

I am Luis M. Castro Martinez, a dedicated web developer with a strong passion for technology and innovation. Over the years, I have cultivated a deep love for web technologies, specializing in frameworks and tools like React, Node.js, cloud computing, and both frontend and backend development. My skill set also extends to databases, giving me a well-rounded understanding of full-stack development.

One of my core strengths is my ability to learn rapidly and adapt to new technologies, which allows me to stay ahead in a fast-evolving field. I enjoy immersing myself in new challenges and thrive when faced with complex problems that require creative and efficient solutions. My curiosity drives me to continuously improve and keep pace with the latest advancements in web development and cloud infrastructure.

Additionally, I value teamwork and am a strong believer in the power of collaboration. Whether in a leadership role or as a team member, I excel in environments that foster open communication and collective problem-solving. Working with others not only fuels my motivation but also inspires me to push boundaries and contribute to creating cutting-edge digital experiences.

Driven by my passion for technology and my ability to rapidly learn and adapt, I am always looking for opportunities to further my growth and contribute to projects that make a real impact.

WORK EXPERIENCE

Fullstack Developer   APRIL 2021 TO JULY 2024
American Health Provider-Miami Lakes, FL

- Developed and maintained web applications using HTML, CSS, and JavaScript (Sencha, React)
- Implemented responsive designs to ensure optimal user experience across different devices
